Topic:
20/20 Benefits Planning for 2010

Overview: Employee benefits continue to dominate the headlines and draw CFOs' attention in a tight economy. The IRS continuously issues new regulations. Employees want more flexibility to reflect their widely divergent lifestyles, family situations and health care needs. What should employers do to avoid tax penalties, attract and motivate employees and save money?

John Walch will discuss options for benefits planning and how to use plans to:

- Positively affect the company's bottom line
- Improve employee morale
- Meet federal tax guidelines
