Who We Are

Ater Wynne LLP provides legal counsel to local, regional, national, and international businesses and other organizations. For more than half a century we have helped clients deal with the legal issues that attend successful growth, critical transactions, and the regulatory environment. Ater Wynne attorneys work to advance the interests of our clients. Many of these clients are on the leading edge of change. They are entrepreneurial, innovative, and attuned to the marketplace. So are Ater Wynne attorneys.

Many of our lawyers are firm partners, and all have strong track records in their fields of expertise. Our clients benefit from seasoned counsel who grasp issues quickly, apply their skills with a minimum learning curve, and bring added value in industry knowledge and contacts. While we are serious, tenacious advocates, clients find us approachable, responsive and easy to work with. We like what we do, and it shows.

How We Work

Ater Wynne stresses the right resource for the particular client need. If the job is straightforward, one attorney is often sufficient. If it calls for a mix of expertise, we assemble a team that fits the requirement. One partner coordinates services and stays in touch with the client's representative.

We have a long history of working successfully with client general counsel. Also, we are frequently engaged by lead counsel to national or international clients who need a capable regional law firm that knows the state and local business climate, political issues, policy makers, courts, and regulatory agencies.

Community Values

Ater Wynne lawyers have a genuine commitment to the communities in which they live. We focus our most significant contributions and volunteer efforts on programs for children and education. The American Bar Association awarded Ater Wynne the first National Civic Literacy Award for our work with the Oregon Children's Foundation in co-founding SMART, a multi-state children's literacy program.
